

Official Franchise Selection Scorecard

Applicant Evaluation & Requirements Guide

Proprietary & Confidential | I Link Limited

Bridging global technology with localized village economies

The Platform

- Mama Mia's Soko is a premier digital infrastructure platform. The goal is rapid market penetration through a high-frequency, low-commission transactional engine.

The Franchise Value

By securing a country franchise, partners gain immediate access to a turnkey technology stack, a global brand, and a multi-currency ecosystem designed to distribute wealth back into the community.

Defining the sovereign territory and market entry tiers

Exclusivity is granted at the national level to a single strategic partner. The one-time fee secures the territory and initiates technical deployment of the national node.

Soko Gold	Soko Green	Soko Red
Category A	Category B	Category C
50 Million+ Population	20M – 50M Population	Under 20M Population
\$40,000 Franchise Fee	\$30,000 Franchise Fee	\$20,000 Franchise Fee
Markets: Tanzania, Kenya, Ethiopia, Nigeria, UK, France Ootext	Markets: Uganda, Angola, Ghana, Australia, Malaysia Cintext	Markets: Rwanda, Burundi, UAE, Sweden, Singapore Ootext

The Soko economic engine operates on a **transparent 60/40 revenue split**

Annual market penetration targets map a five-year path to scale

Based on a minimum recurring spend of \$10.00 per user/month.

Year 1 unit economics project immediate fee recoupment at target volume

Category A

\$5M Monthly GTV

\$340k Revenue
(60% + Ancillary)

\$100k OpEx

\$240k Net Monthly Profit

Category B

\$2M Monthly GTV

\$140k Revenue

\$60k OpEx

\$80k Net Monthly Profit

Category C

\$500k Monthly GTV

\$40k Revenue

\$20k OpEx

\$20k Net Monthly Profit

Across all tiers, the initial franchise fee (\$40k/\$30k/\$20k) is projected to be fully recouped in Month 1 of achieving the base target.

Securing a franchise requires clearing a strict 75% evaluation threshold

The I Link Limited Executive Board employs a standardized, proprietary scorecard to objectively evaluate all applicants for Exclusive Country Franchise rights.

A minimum aggregate score of **75/100** is strictly required to pass the initial audit phase and secure a **"Go" decision**.

Applicants are evaluated across four weighted capability pillars

Pillar 1 measures the financial capacity to sustain rapid scaling

Assesses the strict capability to pay the one-time fee and comfortably absorb a \$100k/month scaling OpEx.

35 Total Points

Liquidity

15 pts

Immediate access to the Onboarding Fee (\$20k–\$40k).

Operational Runway

15 pts

Proven 12-month OpEx reserve (up to \$1.2M).

Financial Stability

5 pts

Clean, audited statements and Bank reference letters.

Pillar 2 assesses physical infrastructure and digital operational reach

Evaluates the immediate capability to drive toward the 1% national market penetration target.

Pillar 3 validates technical readiness and regulatory compliance

Confirms the applicant possesses the oversight needed to manage the local CS-Cart Node safely and legally.

Pillar 4 ensures alignment with community wealth and foundation goals

Secures commitment to the overarching Village Roots mission and long-term ecosystem health.

Final aggregate scoring triggers one of four definitive executive decisions

Mandatory Expression of Interest documentation initiates the audit

1. Company Profile:

Detailing historic performance in retail, logistics, or fintech.

2. Proof of Capital:

Formal bank reference letters covering the Fee and OpEx reserves.

3. Market Entry Plan:

A summarized strategic roadmap for achieving Year 1 targets.

4. Tax Clearance & Incorporation:

Validated legal standing in the requested sovereign territory.
